

## **Press Release**

### **Tejas Networks wins “Best Made in India Telecom Innovation award” at India Mobile Congress (IMC)**

**New Delhi, October 4, 2022:** Tejas Networks [BSE: 540595, NSE: TEJASNET] today announced that the company has won the “Best Made in India Telecom Innovation” award at IMC yesterday. The company won the award for its ultra-converged broadband networking product, TJ1400 UCB, that has been fully designed, developed and manufactured in India.

Mr. Sanjay Nayak, CEO & Managing Director of Tejas Networks said, “We are honoured to be selected for this prestigious award and thank the jury for their strong endorsement of our “Designed and Made in India” innovation. TJ1400 UCB is the world’s first ultra-converged broadband networking equipment to combine wireless RAN (4G/5G), xPON-based fiber-to-the-home (FTTH), multi-gigabit IP/Ethernet access and packet-optical transmission technologies in a single, compact shelf. We have seen strong customer success for this versatile product, which has been installed in all major public and private sector networks in India and in several international carrier networks”.

Mr. Arnob Roy, Chief Operating Officer & Executive Director of Tejas Networks said, “The innovation and unique software-defined hardware™ architecture of TJ1400 UCB is a testimony to the outstanding engineering and R&D talent available in Tejas. The recent addition of 4G/5G wireless RAN capabilities vastly expands the addressable market for this product. TJ1400 UCB offers a very compelling value proposition to our customers who now get the flexibility to offer mobile as well as various wireline services from a single equipment, saving them significant amount of capex and opex, and potentially translating to lower service costs for consumers”.

## About Tejas Networks Limited
